BURDENS LIFTED

From Norway Backs—Relief Proved by Lapse of Time.

Backache is a heavy burden; Nervousness, dizziness, headache. Rheumatic pain; urinary ills; All wear one out. Often effects of kidney weakness. No use to cure the symptoms. Relief is but temporary if the cause remains. If it's the kidneys, cure the cause. Doan's Kidney Pills are for kidney ills.

Here's proof of their merit from this vicinity.

Mrs. Georgia Thayer, Pleasant St., South Paris, Me., says: "The public statement I made several years ago, regarding Doan's Kidney Pills was entirely correct. I am glad to confirm. This remedy helped me when I was suffering from kidney trouble. I advise other people who have kidney complaint to give Doan's Kidney Pills a trial." 18-17

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and settling nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Looking Backward
In Oldfield.
By GRANVILLE FERNALD.
No. VIII.

Dear Friends:—I now wish to resume my excursions among the Highlands of my native town.

Since I took my departure from Porcupine Hill, I have been reviving my recollections of one of the most interesting elevations of all the heights in the southern part of the town. I refer to Oak Hill. My acquaintance with that hill and with the families who used to reside there, dates from about the mid-thirties of the last century or 77 years ago.

The only approach to that neighborhood than was by the public road from Spurr's Corner, starting from its junction with the road to Edes Fall. The ascent to the settled portion of the hill which was occupied by about six families was rather steep to the first corner, where were stored the schoolhouse of the district, at that time and for many years since, favored with a good attendance of scholars and competent teachers; in fact few schools in town were more largely attended or received better attention from the school authorities of the town.

The situation of Oak Hill on the physical landscape is quite peculiar, being disconnected with any other of the prominent highlands of that section. It rises quite abruptly from surrounding plains and other highlands and is a commanding feature of observation from almost every direction. The summit of the hill is broad and practically level, on the north side sloping gently over a surface of excellent pasture, and is a small farm. The average extent of the summit of Oak Hill is about a mile, as near as I can remember, and is as fertile a tract of land as any in town.

Reference to the map of the town in the Atlas of Cumberland county, published in 1871 shows that about twice as many families were living on Oak Hill as when I first knew it.

The most prominent family there, and one of the longest settled on the Hill was that of Capt. Roland Holden. Capt. Holden was a gentleman well noted for his high character as a citizen and the respect in which he was regarded by all who knew him. He was an accomplished surveyor of the land and held the office of Justice of the Peace for many years.

He had two sons and two daughters. Daniel the oldest son succeeded his father in the ownership of the farm and was all his life a prominent and worthy representative of his name in all the civic and social relations of his fellow citizens. Early in life he Rebecca Sawyer, a daughter of Jeremiah Sawyer, several of whose children are living and yet have possession of the ancestral home, but do not reside there except in summer as I am informed.

I am impelled by a feeling of sincere and grateful remembrance of a lifetime to relate a reminiscence of earliest boyhood. It was about the year 1832, at the old first schoolhouse on Oldfield Hill, which stood a little distance north of the road leading easterly to Holdenville. There was a house full of scholars from four years old up to 21. At noontime the big boys and girls were admitted to roam around through the aisles and back seats, to the imminent danger of the little kids who might be in their way. One of the oldest young lady scholars was Rebecca Sawyer, who, seeing me in the aisle near her seat, grabbed for me and drew me in by her side and kept me there until the end of the race. I am sure I appreciated the kindly act for its thoughtfulness and promptness of action. I was from that time and have been ever since inspired with the truest regard for her and her memory. I had but very few opportunities in after years to meet my kind rescuer from danger.

Once, while I was attending a high school in 1843 at Spurr's Corner, I was an invited guest for a night in the home of Mrs. Rebecca (Sawyer) Holden at Oak Hill and remember with pleasure to this day, the gracious hospitality tendered by Mrs. Holden and all the members of her family.

Besides the Holden family there were five others living on the Hill at that time best remembered, viz: Daniel Chase, Thomas Maines, Edward Lowell, Luther Nutting and Nathaniel Robinson. They all had children about my own age with whom I was acquainted and I remember them very kindly. The Chases were my cousins, of whom they were not, several of whom passed away in childhood. I am told that besides some of the descendants of Capt. Roland Holden who retain their interest in Oak Hill the Lowell and Maines families are yet represented there.

One episode in my recollections of a visit to my relatives was being there, on the same day, Uncle Moore and Aunt Mary Turner were there. At that time the Chase family were living over on the western part of the hill where the Maines family have since lived. There was a little sensation about a bear in the neighborhood and it was decided that a big steel trap should be set in the woods not far from the Capt. Holden house, to the northward I think. My cousin, Henry Chase and I accompanied the party who carried the trap to the woods and I remember Uncle Moore's superintending the trap setting. But they didn't catch any bear.

I do not know how many school children now live on Oak Hill, but I am informed they are conveyed daily to the school at Spurr's Corner. A pedestrian excursion to Oak Hill is projected for the early summer.

Worms in Children.

By Dr. True

If mothers only knew! the tortures the little ones may suffer from worms!

Thousands of children have stomach worms or pin worms and their parents do not know it. They doctor them for other ailments.

Signs of worms are:

Indigestion, with a variable appetite; abnormal craving for sweets; nausea and vomiting; swollen upper lip; sour tongue; offensive breath; hard and full belly with occasional gripings and pains about the navel; face at one time flushed, then pale and in a few cases the face takes on a dull leaden hue. Eyes heavy and dull, twitching eyelids; itching of the nose; itching of the rectum; short, dry cough; grinding of the teeth; little red points sticking out on tongue; starting during sleep; slow fever; pulse quickened and irregular; body maybe hot; and often, in children, convulsions.

Don't delay! Delays are dangerous. Give the children at once some of Dr. True's Elixir. Directions on the bottle.

By all dealers at 35c, 50c and \$1.00. Thousands of grateful mothers have given my Dr. True's Elixir to sick children and restored them to health.

Grand Lodge of Maine, I. O. G. T.

The 55th Annual Session of the Grand Lodge was held in Portland, April 9 and 10. This was one of the largest sessions held for many years, 33 lodges being represented.

Tuesday evening there was a reception in Farrington hall given to the visitors and Grand Lodge officers by the local lodges. This was a very interesting occasion and the time passed all too soon, being filled with remarks for good of the order, etc., followed by refreshments and social. Wednesday morning opened with all officers present.

The Grand Lodge degree was conferred on 44 delegates. The reports of officers which followed showed that while there had been a number of deaths during the year that there was a large increase in membership, some new lodges having been organized since the last session. It is pleasant to note that Maine is showing so much interest in Good Templary, the largest temperance organization in the world.

Wednesday evening there was a public temperance meeting. Thursday was a very full day and opened at 8 o'clock with a temperance prayer meeting, followed by reports and other business. Then came election of officers. W. J. Sterling of Waterville was unanimously elected Grand C. T., while Emma Stone of Norway was unanimously elected Grand V. T. The rest of the officers were elected by ballot except the treasurer. The elected officers were installed by N. Grand Secretary W. O. Wylie of Boston. This most interesting and profitable session was interviewed by the photographer, who took a group picture before the members broke up to go to their several homes. The next Annual Session will be held at Waterville.

Cadillac Sells First Car in Dayton after the Flood

One of the first, if not the first, commercial transaction, and in any event the first sale of a motor car, concluded in Dayton, Ohio, after the waters of the recent flood had subsided, was the sale of a Cadillac by H. M. McCord, the local dealer.

The car had been entirely submerged for thirty hours. Aside from a deposit of mud it was found to be none the worse for its bath. An examination showed that owing to the accurate fit of the piston and piston rings not a drop of water had worked its way into the cylinders.

The Webb Harness Store, Bridgton, Me., is for sale. Frank Webb has other business and is to dispose of this. "See ad."

For Cleansing the Blood

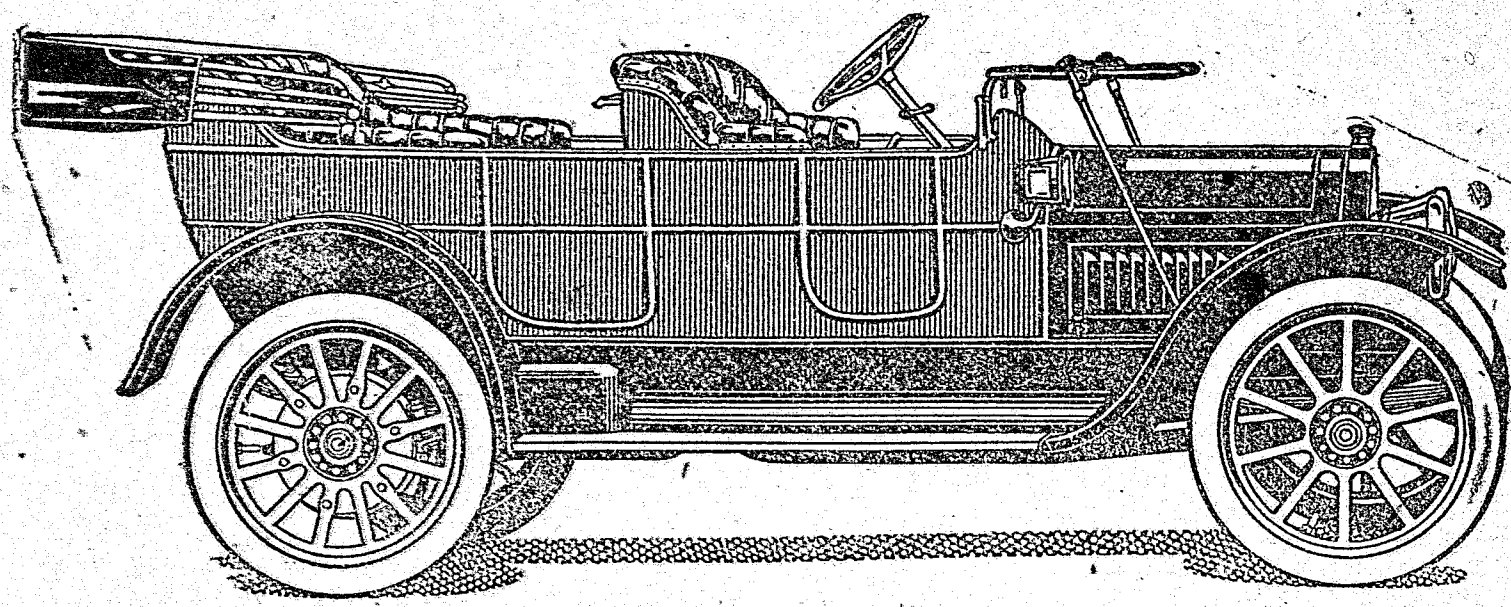

I have never found anything equal to Hood's Sarsaparilla. In our home it is regarded our general family medicine. We use it whenever we are bilious or run down, or have impure blood or that tired feeling. I regard it only simple justice to speak well of this medicine, that has proved its worth so many times. Certainly we would not know what to do were we deprived of Hood's Sarsaparilla." Mrs. L. H. Nusbaum, Goshen, Indiana.

It is because it combines the great curative virtues of more than 20 valuable ingredients—just those prescribed by the best physicians—that

Hood's Sarsaparilla

Possesses such remarkable curative power. It is the Spring Medicine for the blood, stomach, kidneys and liver. Get a bottle today.

If It Is Paint of Any Kind, We Have It.

Sherwin-Williams Paint has been for many years our leading brand of mixed paint. If you consider only the price per gallon, it is not as cheap as some others. If you consider the cost of keeping a building painted for a term of years, it is one of the cheapest paints on earth. It takes less gallons and lasts much longer than the so called, cheap paints. Many shrewd property owners have told us the same.

WE HAVE PAINT FOR ALL PURPOSES.

House Paint, Deck Paint, Floor Paint, Screen Paint, Wagon Paint, Yacht Paint, Buggy Paint, Blackboard Paint, Enamels, Bronzes, Flat Wall Finishes, Drivall, etc.

ARCHITECTURAL VARNISHES. Fillers, Rubbing Varnish, Polishing Varnish, Outside and Inside Spar and Marine Varnishes.

CARRIAGE VARNISH. No. 1 Coach, Wearing Body Varnish, Pale Gear Varnish, Quick and Medium Rubbing Varnishes.

FLOOR VARNISHES. Mar-No, Flexo-Flint Finish, Liquid Granite, Kyanize, Jap-a-Lac, Carmote, Supremis, etc.

Pure White Lead, Linseed Oil, and Zinc at lowest prices. Cold Water Paint and materials for making the same. Murex, Calomel, Gypsum and other wall finishes. Painters' Sundries, Sponges, Chamis Skins, Brushes of all kinds.

Johnson's Wood Dyes, Underlaid and Prepared Wax. O'cedar Mops, Dusters, etc., for hard wood floors and all varnished wood work. Everything in Paints at lowest market price.

Ask Any Sickie Smoker Why

he sticks to Sickie plug and slices off each pipeful as he needs it, when he could get tobacco already cut up, in packages. He'll tell you, "because the Sickie way is the only way to get fresh tobacco, that smokes cool and sweet, and doesn't bite the tongue." He knows.

Tobacco that is cut up at the factory gets dried up on its way to you. Result—it burns fast and hot, and "bites." When you cut your own tobacco off the Sickie plug, you are well repaid for a minute's work by fresh tobacco—because all the flavor and moisture are pressed into the plug and held in by the natural leaf wrapper.

Get a plug of Sickie at your dealer's today. Notice how much more tobacco you get, when you don't have to pay for a package.

BETTER FARMING
means producing maximum crops with the least expense and without impairing the fertility of the soil. Lowell Fertilizers produce a profitable crop and increase the fertility of the soil by supplying a reserve for future seasons. They are composed of Animal Matter—Bone, Blood and Meat—so which has been added potash in the proper proportions to make a perfectly natural plant food that is active all the time.

"WILL CONTINUE TO USE LOWELL FERTILIZER."
I am very much pleased with Lowell Animal Fertilizers. I had about 4,000 barrels of potatoes on nearly 33 acres of ground, not as large this year as I have had in some years, but larger than the average grower has had this past season, which has been very wet and backward.

I expect to use your goods as long as you make them as satisfactory as in the past.

Write for our new booklet. It's full of information and will be sent upon request.

Lameness

Sloan's Liniment is a quick and reliable remedy for lameness in horses and other farm animals.

"Sloan's Liniment surpasses anything on earth for lameness in horses and other farm animals. I would not sleep without it in my stable."

492 West 19th St., New York City.

Good for Swelling and Abscess.

Mrs. H. M. Gibbs, of Lawrence, Kan., R. F. D., No. 3, writes: "I had a mare with an abscess on her neck and one on her bottle of Sloan's Liniment entirely cured her. I kept it in mind the time for galls and small swellings and for everything about the stock."

SLOAN'S LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.

A Throated Gov. Brown (who is quite a farmer) says that he had never lost a hog from cholera and that his remedy was always a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved.

Last month Gov. Brown and myself were at the Agricultural College building and in the presence of the ravages of the disease, Gov. Brown gave the remedy named as "unfailing."

POISONOUS GAS IN STOMACH

Nothing Like MI-O-NA Stomach Tablets to Instantly Banish Misery.

Gas forms in your stomach because food you eat ferments and turns sour.

Allow this fermentation to go on and these gases become poisonous and the poison gets into the blood.

MI-O-NA Stomach Tablets stop the fermentation almost instantly, turn the poisonous gases into liquid, and eliminates it through the natural channels.

If you have stomach trouble such as gas, sourness, heaviness, flatulency, or shortness of breath, MI-O-NA will give gratifying relief in five minutes.

They are sold on money back plan for acute or chronic indigestion, nervousness, headaches, etc. At Noyes Drug Store and druggists America over, 50 cents. Postal will bring trial treatment.

Paint Now.

If you ought to have painted last year and waited for paint to come down, how much do you think you made?

SOUTH WATERFORD.

A Farmers' Institute.

A Farmers' Institute was held at Grange Hall on Friday, April 11. About fifty farmers and their wives and daughters were in attendance in spite of falling rain and muddy roads. No business was transacted in the forenoon. An excellent dinner was furnished for all present by the lady members of Bear Mountain Grange.

W. W. Abbott, President of the Waterford and Norway Cow Testing Association called the meeting to order at an early hour after dinner and announced the presence of Frank S. Adams of Bowdoinham, State Dairy Instructor and A. M. Goodman, of the Bureau of Dairying Department of Agriculture, Washington, D. C., who was introduced and proceeded to speak on the subject of Dairying in New England in which section Mr. Goodman was appointed to labor by the Department.

He treated of cow testing associations, and spoke of their origin and success in some of the European countries. His main topic was the best and most economical rations for milk cows for the production of cream, and he exhibited a tabular statement showing the analysis of the feed value of many different grains and other feeds as compared with one pound of ground oats.

Mr. Adams next spoke very entertainingly on various matters pertaining to the duties of his office and in the interests of the Dairymen of the State and in connection therewith, he spoke of the influence of the Grange as an institute of great benefit and value to the agricultural interests of the State.

An informal discussion ensued the remarks of the gentlemen, promoted by questions, in which Leslie McIntire, Frank H. Morse and others participated.

Bear Pond is rapidly opening at the north shore and shows signs of breaking up earlier than usual.

Elaine York, whose illness was noted last week, is on the road to recovery, and is able to receive calls from friends.

Section 71. The office of railroad commissioner and the office of railroad clerk known as railroad commissioners and state railroad clerks shall be created and established and the tenure of office of all officers and clerks connected with said boards in said offices shall be for a term of four years in said boards together with all the duties and privileges now imposed or conferred upon said officers and clerks by existing laws are, hereby imposed and conferred upon said officers and clerks and all proceedings pending before the railroad commissioners or before the state water board shall be continued and no such action takes effect shall be transferred to the docket of the Public Utilities Commission until the expiration of the term of office of the maximum term. All existing decisions, orders and regulations of the railroad commissioners in force when the railroad commissioners continue until modified or reversed by the railroad commission shall have custody and control of all records, maps and papers pertaining to the railroad, the public utilities and the state water storage commission, and the state water storage commission, consisting of all acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

AN ACT to Establish a State Highway Commission and to Provide for an Issue of State Highway Bonds.

Section 2. The rules of construction in the first three chapters of one of the revised statutes shall apply to the provisions of this "maintenance" shall include the restoring and improving highways to their original condition or to a better condition, and shall be applicable only to highways to the amount of the original cost of the highway, and no assessed or shall hereafter contribute, except as elsewhere herein provided. The word "highways" shall include all roads, and all ways, commission. The word "town" shall include cities, towns, organized plantations and villages, and shall include all places herein otherwise indicated. The words "municipal officers" shall also include the officers of the town, and shall include, however, highways in unincorporated townships. The word "valuations" shall mean the valuation of the property of the town, and the word "assessors" shall refer to this act, unless otherwise indicated. The council shall take, after the governor with the advice and consent of the council shall appoint a committee of three members, one to serve three years, one to serve two years, and one to serve one year, to receive two-thirds of one thousand dollars per annum, and to receive quarterly payments, and shall be paid also such necessary expenses incurred when en-

and with the approval of the governor and council appoint as chief engineer a civil engineer, who shall exercise such knowledge and skill as may be required in the construction of highways, construction, or improvement of any public work, and shall be fixed from time to time by the commission subject to the approval of the governor and council. He shall hold office during the pleasure of the commission. He shall under the direction and control of the commission have the general charge of the office, the records, and all construction and maintenance work, and shall with the approval of the commission employ such necessary assistants, and the chief engineer may with the approval of the commission employ such other engineers, draftsmen, and assistants as may be deemed necessary in the administration and execution of his act. All salaries for personnel employed by the commission shall be approved by the commission. All salaries and expenses contemplated by this section shall be paid from funds for maintenance and construction.

Section 3. The commission shall lay out and construct and maintain a system of state and state-aid highways substantially as shown on the map attached to this act, and in constructing such state highways shall be borne wholly by the state, except as otherwise provided in this act. The commission shall be sole arbiter of the designation of the state and state-aid highways, and the commission, by its action or by publication give all parties interested an opportunity to be heard thereon before the commission makes any final decision. As provided in section twenty-three, the construction of state highways shall be paid for by the state, and the state shall, at the bond issue, herein provided for, and such proceeds of the aggregate of such bonds shall be expended equitably among the state highways, and when the construction of state highways is commenced in any county it shall be continued on such highway until the highway is completed, or until it connects with another improved section of highway, and the highway, when completed, shall constitute an improved way at least seven miles in length.

Section 4. State highways shall be continually maintained under the direction and control of the commission at the joint expense as hereinafter provided, of the state and the county through which the highway is located; the charge against such town for maintenance of its state highways shall not exceed an average of sixty dollars per mile per annum, but the commission may, in its discretion, make loans for such financial assistance as it deems advisable. The provisions of this section shall not apply to any highway already constructed and improved by the state and to such other highways as the commission may designate state highways, to the improvement of which the state has already contributed as the commission may hereafter indicate as taken over by it, and the commission may take over such highways for the purpose of maintenance as herein provided.

[illegible]

ward the contractor to the lowest responsible bidder. Any town may submit bids for the work, and the contractor shall be selected on the basis of the lowest responsible bidder within its limits, and shall be subject to all requirements prescribed for other contractors, except that no bond need be required of it. If all bids are not received, the contractor may be selected and the commission may perform said work by any method which the governor and council approve. The commission shall have the right to suspend or annul the awarding of bonds by the successful bidder for the completion of their work and fulfilling of their contracts, and for the protection of the state and town from the liability of any loss or damage to injury from the negligence or default of the contractor as a result of a negligent completion.

Section 13. No part of bond issue fund for construction shall be expended on a highway or on a street or on a bridge in any town, except in towns of less than twenty-five hundred inhabitants, such construction shall be authorized by the commission. All state highways within such compact portions shall be maintained in the same manner as the highways of the same are located at the expense of the town. Whenever any town shall be notified to so maintain, with its own aid, any notice given its municipal officers by the commission that the highway is in need of such necessary repairs to such way which shall be paid for by the state and the town, the town shall be authorized, as provided in section twenty-five, and the amounts so collected from such towns shall be paid to the state for the use of the administration. The commission may in respect thereto grant such towns such amounts as it may deem proper.

Section 14. The commission may alter, amend or change the grade of any street or highway, or may alter, amend or change the public exigency may require, and it may lay out, establish and open a new street or highway, or it may alter, amend or change a street or highway, and it may also discontinue a highway as a public street or highway, and the same shall be therefor a public street or highway, or the commission may alter, amend or change or originally liable therefore except otherwise provided in the charter of the commission shall fix a time and place for hearing on any such alteration widening or change of grade, and shall give written notice of said alteration widening or change of grade to all parties interested, giving at least fourteen days' notice of the time and place of such hearing, and shall be authorized by statute in respect to laying out highways.

Section 15. If after a view of such way the commission shall deem it necessary to alter, amend or change the same, it is necessary requires that such way be a public street or highway, or that it be a new way be laid out, established

Section 15. By consent of all parties it is agreed that the commission shall have the right to interest any investigation, inquiry or hearing in which the commission is authorized to participate. The commission shall have the right to examine the commission, and his finding, when approved by the commission and so shown of record shall be deemed to be the finding of the commission.

Section 16. The provisions of sections seven of chapter five-fifteen of the revised statutes and of chapter thirty-four of the public laws of nineteen hundred and eleven shall apply to the commission. No person may be enforced by the commission where ever-state or state aid highways are affected. No town in which a state or state aid highway is located shall be exempt from the obligations of statute relating to the blocked or encumbered with snow, any thing to the contrary elsewhere in this

established and known as a state aid highway. Twenty-two more voters in any such town-by written petition, presented within thirty days after the description of such highway has been filed in the office of the town clerk, shall have the right to be heard on the acceptance thereof; and the commission may accept or reject any part or all of the petition and impose terms in respect thereto.

Section 18. State aid highways shall be continually maintained under the direction and control of the commission at the joint expense of the state and town, in which the same are located; the average annual cost such town for maintenance of its state aid highways shall not exceed fifty per centum

annual validation of the same, or before the thirty-first day of December in the year nine hundred thirteen, and thereafter annually on the first day of August in each year, the municipal officers shall prepare and file with the commission a report of the improvement during the next calendar year of state aid highways located in each town, showing the location of the highway, the nature of the improvement, the estimated cost of the improvement, and report thereon with its recommendations to such municipal officers on or before the twentieth day of August in each year. The report shall be submitted to the commission on or before the twentieth day of August in each year. In the case of towns the voters of such towns at the next regular meeting of such towns, or at the next annual town meeting, an article, called "to the voters to vote 'yes' or 'no' on the question of the appropriation of state aid highways for that year," shall be presented to the voters, and it shall be necessary to entitle the town to state aid highways for that year. If the voters of such towns, at the next annual town meeting, shall vote in favor of the work contemplated in such report, the municipal officers shall submit the same to the commission for the purpose of securing state aid on such work. If the voters of such towns shall vote against the same, the municipal officers shall forthwith notify the commission the amount so appropriated. The commission shall have the right to approve, modify, change or disapprove such action, in whole or in part, as the appropriation and conditions require, and shall have the right to suspend or annul such action. This section shall not prohibit towns from voting to do any more or less highway improvement work than that recommended by the commission in making any appropriation under the terms of this act. Town failing to comply with the provisions of this section shall be liable to state aid for the year when such violation occurred.

ation of over one million two hundred thousand dollars, and not over one million four hundred thousand dollars, eighty-four cents for each dollar appropriated by said town; to each town having a valuation of over one million four hundred thousand dollars and not over one million six hundred thousand dollars, eighty-four cents for each dollar appropriated by said town; to each town having a valuation of over one million six hundred thousand dollars and not over one million eight hundred thousand dollars, eighty-four cents for each dollar, so appropriated by said town. The money appropriated by towns applying for state aid is hereinbefore provided with the amount

town-of-its right to the regular annual state aid in other years; the appropriation contemplated by this section shall be unencumbered with, and become a part of the joint fund referred to in section twenty-one.

Section 22. If any town desires that the whole, or any portion of said town fund shall be applied to the construction of a section of the state highway within its boundaries, the same may be so applied at the discretion of the commission; but such portion of the state highway constructed in such manner shall still be subject to all the provisions of the laws relating to the

Section 25. Payments by towns of the shares of the joint fund herein provided shall be made forthwith to the state treasurer on requisition by the commission as the work progresses. If any town shall fail to pay its share as above provided, the amounts payable by such town to the state under this act shall be certified by the commission to the state auditor, who if he
